ABOUT AR500 ARMOR®

AR500 Armor® launched its own line of ballistic armor and body armor solutions in 2012. We entered the industry with the mindset of manufacturing top quality, reliable products that offer our customers high-value solutions. Our products are intended for responsible law-abiding American citizens, law enforcement personnel, and the military.

With our unique in-house manufacturing processes and ability to acquire material made to our specifications, we’ve set the standard for ballistic steel core body armor. Utilizing industry leading spall and fragmentation protective coating, we’ve further increased what’s possible with ballistic steel. Our products are available through our website and authorized dealers throughout the United States. AR500 Armor® is a privately owned company headquartered in Phoenix, Arizona.
NEW PRODUCTS

AR500 Armor®
AR Freeman™

The AR Freeman™ is a great carrier for the citizen who wants the easy don and doff of a minimal footprint carrier that includes the protection of NIJ compliant Level III plates. Compact in size, it will travel well and take up little space next to your bed.

**Features:**
- Lightweight and portable
- Laser-cut MOLLE webbing for accessory attachments
- MOLLE system to accommodate up to three (3) rifle magazine pouches
- Hypalon shoulders straps
- Impact resistant USA made buckles

**Package Includes:**
- AR Freeman Carrier™
- 2x AR500 Level III Body Armor 9” x 9” (Flat, Base Coat)
- Curved and build-up upgrades available
- Trauma Pad upgrade available

**Medical Upgrades** (p. 53-56):
- EPIKS, IFAK & QD IFAK

AR Invictus™

The Invictus carrier is designed to be the lowest profile and lightest carrier possible. The ultralight construction results in a jumpable plate carrier that weighs in at 1.2 lbs and provides extreme mobility without sacrificing comfort or the ability to be fully loaded out.

*Jump tested by US Special Operations, this carrier is mission ready for any op.*

**Veritas Features**
- Designed for mobility, utility and comfort
- Extremely lightweight and low profile, while still providing full coverage
- A laminate exterior construction
- A flexible interior materials
- Full laser-cut MOLLE
- Adjustable cummerbund
- Velcro web sections for ID panels
- Jump tested

**Modular Upgrades** (p. 43-49):
- Kangaroo Pouch
- Padded Side Plate Pouches
- AR500 Armor® Double Pistol or Rifle Magazine Pouches
- AR500 Armor® Pistol Holster

*Designed by AR500 Armor® in Phoenix, Arizona | Manufactured to our strict quality standards in Vietnam*
The AR500 Armor® Testudo™ Lite Plate Carrier is more versatile and lighter than ever before! We have taken out the side buckles, admin pouch and 3D mesh to give you more mobility in emergency type situations. Now it is perfect for on-the-go circumstances that allows for easy donning and doffing by only securing your carrier with the Velcro cummerbund.

**Testudo™ Lite Features**
- Lightweight for mobility
- Modularity for user configuration and expansion
- Removable shoulder pads
- Hypalon easy-to-grip pull tabs, eyelets, and shock cord
- Built-in side plate pouches
- Inner-plate retention straps
- Easy donning and doffing Velcro cummerbund

**Modular Upgrades** (p. 43-49):
- Kangaroo Pouch
- 8” x 10” Adaptive Plate Insert
- Padded Side Plate Pouches
- AR500 Armor® Double Pistol or Rifle Magazine Pouches
- AR500 Armor® Pistol Holster

**Medical Upgrades** (p. 53-56):
- EPKIS, IFAK & QD IFAK

The Veritas™ Lite is a slimmed down and a lighter version of our original Veritas™. We were able to make this carrier 1.6 lbs. by removing the 3D mesh, and top MOLLE for more mobility than ever!

**Veritas™ Lite Features**
- Modularity for user configuration and expansion
- Impact resistant USA made adjustable and removable side buckles
- Removable shoulder pads
- Hypalon easy-to-grip pull tabs
- Reinforced stitching

**Modular Upgrades** (p. 43-49):
- Cummerbund System
- Kangaroo Pouch
- 8” x 10” Adaptive Plate Insert
- Padded Side Plate Pouches
- AR500 Armor® Double Pistol or Rifle Magazine Pouches
- AR500 Armor® Pistol Holster

**Medical Upgrades** (p. 53-56):
- EPKIS, IFAK & QD IFAK
### Level III Raw Steel Plate

AR500 Armor® Level III Steel Body Armor is manufactured from a ballistic grade steel core and coated with our fragmentation protective coating. We have created this plate to be stress fracture resistant, while still containing lightweight features and an ultra-thin profile of only .20”. Not only is it capable of stopping common handgun rounds, it is also stab and slash resistant.

<table>

  - Paxcon Logo
- **THREAT RATING:** Multi-hit
- **SHELF LIFE:** 20 Years

---

### Level IV Multi-hit Lightweight

Designed to be reliable and capable of defending against multi-strike threats, the patented tile array construction prevents the spiderweb cracking that weakens other ceramic plates. This mitigates the damage and integrity to the rest of the plate and ensuring full protection from armor piercing rounds on other parts of the plate.

Ballistic Rated Armor

Threat Level Chart

Body armor saves lives; however, deciding which armor is right for you can be difficult. Understanding your surrounding threats and the rounds your armor can protect you against will guide in selecting the optimal rating. Our armor options range from Level II, and IIIA which stop most common handgun threats, to III, III+, III+ Lightweight, and IV which can resist rifle and armor-piercing rounds. The higher the rating, the greater the protection.

Armor can't protect you unless you wear it, so it is crucial that you choose the appropriate armor for the challenges you’re likely to face on and off the field.

Below is a chart that lists body armor levels and the assortment of calibers each of them can resist.
AR500 Armor® Level IIIA Steel Body Armor is manufactured from a ballistic grade steel core and coated with our fragmentation protective coating. We have created this plate to be stress fracture resistant, while still containing lightweight features and an ultra-thin profile of only .20". Not only is it capable of stopping common handgun rounds, it is also stab and slash resistant.

AR500 Armor® Level III Steel Body Armor is a revolution in the armor industry by combining guaranteed performance, durability, and value. Independently tested in accordance with NIJ 0101.06 through Oregon Ballistics (OBL), and H.P. White Laboratories.
AR500 Armor® Level III Polyethylene (PE) Lightweight Body Armor plate is NIJ 0101.06 certified, positive buoyant, stand-alone, multi-hit capable, and about 4.7 lbs. lighter than our 10” x 12” Level III Steel Plate.

AR500 Armor® LW (Lightweight) Level III+ Body Armor is currently the lightest level III steel core body armor on the market. We used a higher grade ballistic core to allow for a thinner profile while being combined with a weight saving cut to achieve the lightest weight level III plate without sacrificing vital coverage or ballistic performance.
Our Level III+ Body Armor features an improved, ultra-hard ballistic steel core further enhancing performance over our Level III line. Now DEA Certified, our Level III+ was tested by the DEA in 2018 using their 2018 DEA Protocol which exceeds NIJ Standards. This test is specific to the threats they are faced against and since passing, it continues to surpass our top competitors plates.

**DEA 2018 Protocol Certification:**
- .223 Remington Tactical Bonded Soft Point, 62 grain @ 2,600 +/- 50 fps
- .556x45mm M985 (Green Tip), 62 grain @ 3,100 +/- 50 fps
- 7.62 x 39mm M855 Ball, 123 grain @ 2,400 +/- 50 fps
- 7.62 x 51mm M80 Ball, 149 grain @ 2,750 +/- 50 fps
- .308 Winchester PSPB Core-Lokt Ultra Bonded, 150 grain @ 2,600 +/- 50 fps

Proudly manufactured in our Phoenix, Arizona facility
AR500 Armor® Rimelig Level II ASC Soft Body Armor will stop the most common handguns while still being lightweight. Designed to provide maximum coverage, our patented 10" x 12" ASC body armor cut fills the void left by many soft armor panels. Crafted to be used in standard plate carriers, stand-alone, or in conjunction with rifle plates.

BACKPACK ARMOR & TRAUMA PADS
**Backpack Armor**

AR500 Armor® Backpack Armor is designed to be inserted into your school bag, laptop pocket, hydration pocket, or 15” laptop carry bag to provide concealed pistol and/or rifle protection making this the ideal choice for staying prepared in everyday life.

**Trauma Pads**

Designed to be worn in conjunction with and behind your body armor, our Trauma Pads reduce the amount of energy transferred to your body when rounds impact your armor. Our patented ASC (Advance Shooter’s Cut) Trauma Pads matches all our armor perfectly.

PLATE CARRIERS
The AR500 Armor® Concealment Plate Carrier fits under your regular clothes while offering the ability to house rifle rated armor protection. Ultra-lightweight and ultra-low profile results in the perfect concealment carrier.

**Concealment Features**
- Removable Side Plate Pouches
- "Slick Side" design
- Slim, fully adjustable Velcro shoulder straps
- Elastic and Velcro secure waist adjustments
- Lifetime Warranty

**Carrier Sizes and Weights**
- **Concealment**
  - M - XXL: 1.3 lbs.

**Armour Compatibility**
- 10" x 12" Body Armor
- 11" x 14" Body Armor
- Both soft & hard variants, Ceramic, Polyethylene, & Trauma Pads

**Stitching**
- Reinforced Bar-tack
- Double Stitching
- Square-Boxed Stitching

**Fabric Materials/Construction**
- 100D Nylon
- Elastic
- #92 Bonded Nylon Thread

---

The AR500 Armor® EPC (Emergency Personal Carrier) is a rapidly deployable armor system designed to accommodate almost our entire line of Body Armor. The unique construction provides unmatched coverage with easy donning and doffing for emergency situations.

**EPC Features**
- Flexible and versatile, multiple deployment methods over clothing
- Quick-Release shoulder buckles
- Padded neck strap
- Side Cobra Buckles

**EPC Sizes and Weights**
- EPC: S - XXXL: 7.5 oz.

Guardian MOLLE

Designed as a rapid deployable, quick-detach plate carrier, the Guardian series features fully adjustable shoulder and side straps. This design provides enough real-estate via webbing for the necessary essentials, while simultaneously reducing weight and bulk. The Guardian Plate Carrier can be donned and doffed in seconds with little training, and can be worn over existing soft armor and other gear.

100% Made in the USA!

The Testudo™ Lite Plate Carrier is more versatile and lighter than ever before! We have taken out the side buckles, admin pouch and 3D mesh to give you more mobility in emergency type situations. Now it is perfect for on-the-go circumstances that allows for easy donning and doffing by only securing your carrier with the Velcro cummerbund.

**Testudo™ Lite Features**
- Lightweight for mobility
- Modularity for user configuration and expansion
- Removable shoulder pads
- Hypalon easy-to-grip pull tabs, eyelets, and shock cord
- Built-in side plate pouches
- Inner-plate retention straps
- Easy donning and doffing Velcro cummerbund

MEDICAL KITS

AR500 ARMOR®
The AR500 Armor® Pack EPiK is a high value medical kit loaded with the necessary essentials to combat traumatic bleeding wounds. Packaged in a durable and re-sealable aLOKSAK, our Pack EPiK is compact and easily fits into your backpack and other small compartments. Stores easily in your glove box, range bag, luggage, trunk, or desk drawer.

AR500 Armor® Pack EPiK contents:
- 1x Hemostatic Agent
- 1x SWAT-Tourniquet
- 1x H&H Thin-H Emergency Bandage
- 1x H&H PriMed Compressed Gauze Roll - 4.5" x 4.1 yards
- 1x Waterproof Medical Tape - 5" x 2.5 yards
- 1x NAR Bear Claw Gloves (Large)
- AR500 Armor® Medical Patch
- 1x Re-sealable heavy duty aLOKSAK

Pack Light Contents
- 1x Hemostatic Agent
- 1x SWAT-Tourniquet
- 1x H&H Thin-H Emergency Bandage
- 1x H&H PriMed Compressed Gauze Roll - 4.5" x 4.1 yards
- 1x Waterproof Medical Tape - 5" x 2.5 yards
- 1x NAR Bear Claw Gloves (Large)
- AR500 Armor® Medical Patch
- 1x Re-sealable heavy duty aLOKSAK

AR500 Armor® Pocket EPiK contents:
- 1x Hemostatic Agent
- 1x SWAT-Tourniquet (Swat-T, Tourniquet, Pressure Dressing, or Elastic Bandage)
- 1x H&H PriMed Compressed Gauze - 4.5" x 4.1 yards
- 1x 4" Compressed Bandage
- 1x NAR Bear Claw Gloves (Large)
- 1x Re-sealable heavy duty aLOKSAK

Pocket EPiK Contents
- 1x Hemostatic Agent
- 1x SWAT-Tourniquet
- 1x H&H Thin-H Emergency Bandage
- 1x H&H PriMed Compressed Gauze Roll - 4.5" x 4.1 yards
- 1x Waterproof Medical Tape - 5" x 2.5 yards
- 1x NAR Bear Claw Gloves (Large)
- AR500 Armor® Medical Patch
- 1x Re-sealable heavy duty aLOKSAK

The AR500 Armor® Side Plate Pouch EPiK is specifically designed to fit into any plate carrier capable of accepting side plate body armor. We’ve carefully chosen each component and have managed to create an economic, thin, and lightweight medical kit that is fully capable of handling life threatening severe bleeding injuries without the need for additional pouches or sacrificing your body armor.

AR500 Armor® Side Plate Pouch EPiK contents:
- 1x Hemostatic Agent
- 1x HyFin Twin Chest Seal
- 1x SWAT-Tourniquet
- 1x H&H Thin-H Emergency Bandage
- 2x Krinkle Super Sponge Gauze Pads - 6" x 6.75" (in single package)
- 1x NAR Bear Claw Gloves (Large)
- AR500 Armor® Medical Patch
- 1x Re-sealable heavy duty aLOKSAK

Side Plate Pouch EPiK Contents
- 1x Hemostatic Agent
- 1x H&H Thin-H Emergency Bandage
- 1x SWAT-Tourniquet
- 1x Waterproof Medical Tape - 5" x 2.5 yards
- 1x NAR Bear Claw Gloves (Large)
- AR500 Armor® Medical Patch
- 1x Re-sealable heavy duty aLOKSAK

AR500 Armor® Rapid Contents:
- 1x Celox RAPID Z-Fold Hemostatic Gauze
- 2x FoxSeal Chest Seals (in single package) - or equivalent based on availability
- 1x SWAT-Tourniquet
- 1x H&H Thin-H Emergency Bandage
- 1x Waterproof Medical Tape - 5" x 2.5 yards
- 1x NAR Bear Claw Gloves (Large)
- AR500 Armor® Medical Patch
- 1x Re-sealable heavy duty aLOKSAK

RAPID EPiK Contents

Measuring in at just 5.5" x 4.5" and weighing only 7.8 ounces, the AR500 Armor Pocket EPiK is our smallest medical kit designed to handle severe bleeding wounds. Ideally sized to fit in the cargo or back pocket on standard cargo pant.

AR500 Armor® Pocket EPiK contents:
- 1x Hemostatic Agent
- 1x SWAT-Tourniquet (Swat-T, Tourniquet, Pressure Dressing, or Elastic Bandage)
- 1x H&H PriMed Compressed Gauze - 4.5" x 4.1 yards
- 1x 4" Compressed Bandage
- 1x NAR Bear Claw Gloves (Large)
- 1x Re-sealable heavy duty aLOKSAK

Pocket EPiK Contents

The slim profile makes it convenient and easy to store in a variety of pouches and pockets. Designed to save time when seconds count. Our Pack Rapid EPiK includes the necessary supplies to combat severe bleeding wounds. It contain the fastest acting hemostatic gauze, that stops severe arterial bleeding with only 60 seconds of compression.

AR500 Armor® pack EPiK

AR500 Armor® Pocket EPiK

AR500 Armor® Side Plate Pouch EPiK

AR500 Armor® Rapid EPiK
AR500 Armor® Quick Detachment & Deployable IFAK

The AR500 Armor® Quick Detachment and Deployable (QD) IFAK combine the best of all worlds with multi-stage deployment and a tear-away feature. Unique to the market, our QD IFAK design mounts to your plate carrier, cummerbund, or any webbed surface and allows full access to the inner workings of your medical kit immediately.

AR500 Armor® QD IFAK Features:
- Unique Multi-Stage Deployment
- Tear-Away and quickly detachable design
- Velcro patch panel
- Exterior tourniquet mounting points
- Trauma shear mount with retention strap
- High-strength Elastic & Velcro included for mounting
- Heavy-duty bar-tack stitching on all webbing and critical points

AR500 Armor® Tactical Emergency Personal Injury Kit

The AR500 Armor® Tactical EPIK is the standard for MOLLE based medical kits designed with the sole purpose of treating traumatic bleeding injuries. Our Tactical EPIK is compact, portable, and designed to be attached to your MOLLE compatible plate carrier, rifle bag, or backpack. This kit includes the necessary tools to treat life threatening bleeding wounds (gunshots, knife/stab wounds, or other serious bleeding injuries including arterial bleeding). Conveniently packaged and pre-sorted, we still leave room for expansion and your personal touch.

AR500 Armor® QD IFAK Features:
- Double pull zippers for an adjustable retention cord
- Internal adjustable cord shelf
- Internal pocket and elastic straps
- Velcro Patch Pane
- 2 rows of MOLLE webbing in front
- Velcro Stips for ID Patches
- Heavy-duty bar-tack stitching on all webbing and critical points

Tactical EPIK Contents:
- 1x Tactical MOLLE EPIK Pouch
- 1x Hemostatic Agent
- 1x SWAT-Tourniquet (Swat-T), SOF Wide Tourniquet, or CAT Upgrade
- 1x pair Foxseal Chest Seals
- 1x H&H Thin H Emergency Bandage
- 1x H&H PriMed Compressed Gauze - 4.5” x 4.1 yards
- 1x Trauma Shears
- 1x Waterproof Medical Tape - .5” x 2.5 yards
- 1x NAR Bear Claw Gloves (Large)
- 1x AR500 Armor® Medical Patch
- 1x Cross Medical Patch
- 2x MALICE Clips™

AR500 Armor® Owee Kit

AR500 Armor® Owee Kit

A true, no fluff, pure function, full featured individual first aid kit. The AR500 Armor® Vacuum Sealed Trauma Kit contains the necessities to combat severe trauma wounds.

With a uniquely compact profile, measuring smaller than two M4 magazines, our Vacuum Sealed Trauma Kit fits into any double M4 magazine pouch, whilst including a full-size tourniquet! Don’t take the risk, own a trauma kit and be prepared!

The AR500 Armor® Owee Kit is a serious aid kit that is designed to address minor scrapes and scratches and be handy and ready wherever you are! Being small and compact at only 3.2 oz. and 6.5" x 5" x 1", it fits almost anywhere and can be taken everywhere while leaving your more sophisticated Emergency Personal Injury Kits (EPIKs) unopened and ready for the more serious injuries they are designed to address.
Designed to supplement your tactical and fitness training by incorporating function towards multiple training regimens. You’ll find the Atlas equally comfortable and beneficial during Tactical, Endurance, Strength, and CrossFit training. Fully scalable in weight from 1.6 lbs. to 49.2 lbs., you can fine tune the Atlas to your desired level of resistance in minimal increments to increase or reduce intensity as needed.

The non-ballistic AR500 Armor® Weighted Training Plates are specifically designed for use in our Atlas Adjustable Weight Fitness Plate Carrier, or AR15 magazine pouches. Our Miniature Weight Plates weigh in at 1.6 lbs. each and can be used in any or all of the 12 mounts on the Atlas to fine tune weight for increased resistance. Alternatively, you can load our Miniature Weight Plates into your standard AR15 magazine pouches for training purposes.

Training Plates fit all plate carriers designed to accept 10” x 12” body armor or larger and are fully compatible with our Atlas Adjustable Weight Fitness Plate Carrier.

Each training plate is coated with the same base coat as all AR500 Armor® Body Armor providing protection against the elements, making them water and abrasion resistant.

### FITTING & TRAINING

100% Made in the USA! | Proudly manufactured in our Phoenix, Arizona facility

100% Made in the USA! | Proudly manufactured in our Phoenix, Arizona facility
We offer a wide variety of steel targets in various shapes and sizes. Whether you are looking for targets shaped like gongs, silhouette targets, or something a little different, all our steel targets are rated to handle even the heaviest of rifle calibers. Our steel targets are the perfect combination of style and function. Their original designs will bring a new level of challenge and enjoyment to your shooting experience through their unique shapes and form.

Targets by AR500 Armor® are rated for use with most common pistol calibers at no less than 7 meters and most common rifle calibers at 50 meters. We strongly discourage the use of steel core ammunition. As always, be safe out there, be situation aware, and understand that spall and frag are always a danger with uncoated ballistic steel targets. Respect your distances and your aim points.

**Fixed Target Stand**

Built to last, our high-grade steel chains were selected for both quality and cost. Perfect for hanging any of your Targets by AR500 Armor®, this chain is higher in grade than you will find in your local home improvement or hardware stores.

**Hardware Included:**

- 2x 1 1/2" Chain
- 2x 3" x 3/8" Carriage Bolts
- 4x 3/8" Flat Washers
- 4x 3/8" Lock Washers
- 4x 3/8" Wingnuts

**Hanging Target Stand Kit**

Our Hanging Target Stand Kit comes with all the hardware you need to construct your own hanging target stand. The Hanging Target Stand kit was designed to be customizable, and easy to assemble. All you need is a 2" x 4" wood cut to whichever lengths you prefer. Then you can create the ideal stand size for your needs. Capable of supporting the weight of multiple targets!

**Hardware Included:**

- 2x A-Frame Brackets
- 2x Cross Mounting Brackets
- 12x 3" x 3/8" Carriage Bolts
- 12x 3/8" Flat Washers
- 12x 3/8" Lock Washers
- 12x 3/8" Wingnuts

*2" x 4" wood not included*
