

P3 ARMOR PLATE

Run without becoming weary.
Swim without tiring.

Our Polyethylene plates are incredibly light, highly durable, and rifle-rated. Bonus feature: they are neutrally buoyant, capable of floating, and feature a hydrophobic wrap. Tested independently to the NIJ Level III benchmark, the P3 plate stops the 7.62x51 M80 Ball at 2780 FPS.

SHOOTERS CUT: TACTICAL PLATE

DESCRIPTION
